IWA Young Water Professionals

International Conference

23-27 JUNE • 2019
TORONTO, CANADA

www.iwa-youngwaterprofessionals.org
Future Water Leaders

We would like to invite all young, inspiring water professionals to join us at the 9th International Young Water Professionals Conference (IYWPC) in Toronto, Ontario, Canada from 23-27 June 2019. The Toronto conference is organised by the International Water Association (IWA) together with IWA Canada Young Water Professionals. It builds on eight previous successful events around the world: UK, Netherlands, Singapore, USA, Australia, Hungary, Taiwan, and South Africa.

Who will you meet?
Check on www.iwa-connect.org

The IYWPC Conference: a truly diverse & representative water conference for young water professionals, by young water professionals.

What to expect?

The conference’s multi-disciplinary programme aims to empower and assist young professionals in their career, and you will have excellent networking opportunities, develop professionally and gain recognition for your contributions.

Did you know?
The IYWPC conference is run with the aim to provide an affordable and accessible platform for professional development and learning in the water sector, the conferences are organised by young water professionals contributing voluntarily. These young water professionals gain skills – leadership, communication, sales, project management – and build new relations in the process.

Start thinking about your contribution!

Become a sponsor now

We partner with some of the water sector’s leading companies and organizations to work together for a better water future. Our sponsors and partners benefit from a unique opportunity to connect with the next generation of water leaders.

1. Personal access to over 300 young water professionals
2. Recognition within the global water and wastewater community as a company that supports and promotes emerging talent
3. Extensive visibility by crossing many markets and broadening your international reach
4. Access to Young Water Professionals, fresh and innovative thinking
5. Influence Young Water Professionals as they progress in their career to decision making positions
6. Provide professional development opportunities to your young staff by making them part of the IWA Young Water Professionals
7. Plant yourself firmly into the minds of key industry players
8. Enjoy well-targeted networking opportunities

Sponsorship opportunities include: gold, silver, bronze, gala dinner, video, and strategic partnerships.
